Greg, could you be sure to get my doc count update included in the version you send to Kate? I will let you know if I get a final doc count from Tim, but if I don't hear from him, I'd use the 850 figure that I sent to you and Sandy.

Thanks!

Thanks, Greg! Please send your revision to Kate Fay. Once she's reviewed it, I'll send it to HQ.

Thanks, again!

I am in today and will respond. I looked through it briefly and the new Phase V info needs to be included. I just worked with Rich to up date the webpage last week so we should follow that language closely too.

I have a conference call this morning at 9am and will jump on the update as soon as I'm done with the call.

Sandy - can you work with Greg and Rob to update the paper to include the status of our phase 5 sampling and analysis? I am think that this should do it. We probably want to include our collaboration with USGS and WY associated with phase 5.

Martin/Sandy:

Hoe about if you use the attached version and complete a strike and underline update? I would like to take a quick look at it and then we can send it to Fred to ensure he is onboard with its contents.

Thanks

Martin and Sandy -- Please see Pamela Janifer's message below.

I know Ayn is out until July 5, but do either of you have an up-to-date version of the Pavillion fact sheet for the Administrator's hearing book?

Here is the latest version I have. It's from February 17, 2012.

[attachment "2013 SEPW hearing - Barrasso- Pavillion + RA changes.docx" deleted by Gregory Oberley/R8/USEPA/US]

Please help with getting this version updated, or if there's an update already prepared, please tell me how I can get it asap.

Many thanks!  
Sandy

We still need some things for the Administrator's book. Forward to others as needed and thanks for your help.

List below - we need one pagers on these asap, but definitely before noon tomorrow...

Let us know if questions.

- \* diesel guidance
- \* the fracking materials have references to answers that are draft parts of harris response and may change - we need to run that down and remove those references
- \* green book (need more)
- \* harris data request and response (OAR)
- \* we need to pull high profile letters and responses to this committee and members (each team should pull)
- \* regional fracking issues - need fact sheets for dimock, pavillion and range resources
- \* SAB
